HEART & LUNG

THE JOURNAL OF CRITICAL CARE

VOLUME 9
JANUARY-DECEMBER 1980

THE C. V. MOSBY COMPANY *publisher*

Official publication of
American Association of Critical-Care Nurses

EDITORS

Dorothy M. Voorman, RN, BSN, CCRN
Wyckoff, New Jersey

Alfred Soffer, MD
Chicago, Illinois

Sylvan Lee Weinberg, MD
Dayton, Ohio

Subject index*

A

Aberration, left bundle branch, study in, 144
Abscesses, multiple pulmonary, resulting from pulmonary mucormycosis, 514
Activity, sexual, and stair-climbing test, heart rate and blood pressure responses to, 1025
Adults, healthy young, effect of ice water ingestion on blood pressure and pulse rate in, 306
  and older children undergoing cardiac operations, medical management of, 277
Agent(s), antiarrhythmic, disopyramide phosphate (Norpace), clinical pharmacology of, 475
  other antiarrhythmic, toxic interactions with: adverse effects of disopyramide (Norpace), 469
  various therapeutic, systemic and pulmonary changes in rabbits exposed to long-term nebulization of, 311
Ambulance telemetry, cost and utility considerations in implementing, 866
American Association of Critical-Care Nurses
  Educational directory, 40, 240, 440, 631, 814, 999
  International meeting, 983
  News and announcements, 32, 231, 432, 621, 808, 984
  President's message, 25, 223, 423, 613, 801, 977
  Staff report, 226, 429, 619, 804, 980
  Standards for Care of Critically Ill, 29
Anaphylaxis and drug reactions: guidelines for detection and care, 662
Anemia, chronic megaloblastic, left ventricular failure precipitated by, 299
Aneurysm precautions: physiologic basis for minimizing rebleeding, 336
Angina pectoris in absence of coronary artery disease, 728
  Prinzmetal's, with right bundle branch block, case of, 531
Antiarrhythmic agent(s) disopyramide phosphate (Norpace), clinical pharmacology of, 475
  other, toxic interactions with: adverse effects of disopyramide (Norpace), 469
Antibiotics, new—uses and dangers, 1089
Anxiety, preoperative, and postoperative recovery, varying timing of information to alter, in cardiac surgery patients, 854
Aorta, acute dissections of, management of, 284
Arrhythmia monitoring, computerized, alternative to: lidocaine prophylaxis, 1007

Arrhythmia monitoring—cont'd
  system, computerized, nurse acceptance of, 1044
Arterialized capillary blood sampling in neonate: reappraisal, 521
Artery(ies), coronary, and myocardium, evaluation of, by radionuclide imaging, 344
  disease, coronary, angina pectoris in absence of, 728
Artifacts, infusion pump: potential danger of spurious dysrhythmia, 1063
Asthma update: pathophysiology and treatment, 665
Asystole, prolonged, convulsive disorder mimicked by, and cured by permanent pacing, 711
Atrial tachycardia, multifocal: 66 month follow-up of 50 patients, 328
Atrioventricular block, paroxysmal second-degree, induced by exercise, 887
  junctional (extrasystolic or parasystolic) complexes, concealed bigeminal interpolated, 140
  nodal disease, does diagnosis of sinoatrial block imply? 892
Autoimmunity, immunosuppression, and hypersensitivity, 651
  prototype of: patient with systemic lupus erythematosus, 682

B

Beliefs and knowledge, health, relationship of, to exercise compliance in patients after coronary bypass, 487
Benign and malignant forms—chronic meningitis, 534
Bifascicular block in acute myocardial infarction, V. Acute problems in coronary care unit that do not require intervention, 152
Bigeminal interpolated A-V junctional (extrasystolic or parasystolic) complexes, concealed, 140
Bigeminy, escape-capture, study of, 1087
Blindness, sudden—transient and permanent, 898
Block, bifascicular, in acute myocardial infarction, V. Acute problems in coronary care unit that do not require intervention, 152
  paroxysmal second-degree atrioventricular, induced by exercise, 887
  right bundle branch, case of Prinzmetal's angina with, 531
  sinoatrial, does diagnosis of, imply atrioventricular nodal disease? 892
Blood pressure(s), central, leveling when monitoring: alternative method, 1053
  and heart rate responses to sexual activity and stair-climbing test, 1025
  and pulse rate, effect of ice water ingestion on, in healthy young adults, 306

*January-February, pp. 1-202; March-April, pp. 203-400; May-June, pp. 401-590; July-August, pp. 591-776; September-October, pp. 777-958; November-December, pp. 959-1052.

Blood—cont'd
sampling, arterialized capillary, in neonate: reappraisal, 521
transfusions, immunologic factors in reactions to, 675
Boerhaave's syndrome: rare disease with some not so rare implications for nursing care, 507
Books and audiovisual teaching material, reviews of, 161, 359, 557, 740, 920, 1103
Branch aberration, left bundle, study in, 144
block, right bundle, case of Prinzmetal's angina with, 531
Bretylium tosylate in management of recurrent ventricular fibrillation complicating acute myocardial infarction, 265
Bundle branch aberration, left, study in, 144
block, right, case of Prinzmetal's angina with, 531
Bypass, coronary, relationship of health beliefs and knowledge to exercise compliance in patients after, 487
patients, coronary, comparison of in-hospital education approaches for, 127

C

Cancer immunology, 686
Cannulation, percutaneous internal jugular vein, unusual complication of: massive bilateral hydrothorax and hydromediastinum, 883
Capillary blood sampling, arterialized, in neonate: reappraisal, 521
Cardiac operations, medical management of adults and older children undergoing, 277
patient and sleep, 453
surgery patients, varying timing of information to alter preoperative anxiety and postoperative recovery in, 854
Cardiovascular surgery service, clinical nurse specialist–social worker team on, 841
therapeutics—overview of symposium, 263
Care, nursing, rare disease with some not so rare implications for: Boerhaave's syndrome, 507
preoperative and postoperative, to prevent pulmonary complications, 57
Catheter, Swan-Ganz, troubleshooting, 303
Catheterization, right heart, for intracardiac electrophysiologic studies: implications for primary care nurse, 85
Changes, systemic and pulmonary, in rabbits exposed to long-term nebulization of various therapeutic agents, 311
Children, older, and adults undergoing cardiac operations, medical management of, 277
with acute respiratory failure, emotional management of, in intensive care unit: case study, 98
Climbing test, stair-, and sexual activity, heart rate and blood pressure responses to, 1025
Clinical nurse specialist–social worker team on cardiovascular surgery service, 841
Coagulation, disseminated intravascular, incidence of, in patients admitted through emergency department: 5 year retrospective study, 833
Communication gap, closing, between physicians and nurses in intensive care unit setting, 836
Complexes, concealed bigeminal interpolated A-V junctional (extrasystolic or parasystolic), 140
Complications, pulmonary, preoperative and postoperative care to prevent, 57
Computerized arrhythmia monitoring, alternative to: lidocaine prophylaxis, 1007
system, nurse acceptance of, 1044
Conduction defects, ventricular: significance and prognosis, 111
intracardiac, study in, 891
Congestive heart failure, left ventricular, principles of vasodilator therapy for, 271
nitroglycerin and nitrates in, 873
Convulsive disorder mimicked by prolonged asystole and cured by permanent pacing, 711
Coronary artery(ies) disease, angina pectoris in absence of, 728
and myocardium, evaluation of, by radionuclide imaging, 344
bypass patients, comparison of in-hospital education approaches for, 127
relationship of health beliefs and knowledge to exercise compliance in patients after, 487
care unit, acute problems in, that do not require intervention. V. Bifascicular block in acute myocardial infarction, 152
hemodynamic monitoring in, 541
patients, effects of nurses' knowledge of teaching-learning principles on knowledge of, 1073
patients and families, evaluation of inpatient educational program for, 846
Cost and utility considerations in implementing ambulance telemetry, 866
Critical care units, mediating stress in: nurse's dilemma, 103
stress effects on patients in, from procedures performed on others, 494

D

Dangers and uses of new antibiotics, 1089
Defects, ventricular conduction: significance and prognosis, 111
Deprivation, sleep, and intensive care unit syndrome, correlation between, 464
Digitalis-quinidine interaction, 352
Directory, educational (AACN), 40, 240, 440, 631, 814, 999
Disease, atrioventricular nodal, does diagnosis of sinoatrial block imply? 892
chronic obstructive pulmonary, selection of exercise program for patients with, 68
coronary artery, angina pectoris in absence of, 728
rare, with some not so rare implications for nursing care: Boerhaave's syndrome, 507
Disopyramide (Norpace), adverse effects of: toxic interactions with other antiarrhythmic agents, 469
phosphate (Norpace), clinical pharmacology of antiarrhythmic agent, 475
Disorder(s), convulsive, mimicked by prolonged asystole and cured by permanent pacing, 711
respiratory, during sleep. I, 1011
Dissections, acute, of aorta, management of, 284
Diving reflex, initiation of, in neonates with supraventricular tachycardia, 518
Drug reactions and anaphylaxis: guidelines for detection and care, 662
Dysrhythmia, spurious, potential danger of: infusion pump artifacts, 1063

E

Education(al) approaches, in-hospital, for coronary bypass patients, comparison of, 127
directory (AACN), 40, 240, 440, 631, 814, 999
program, inpatient, for coronary patients and families, evaluation of, 846
Electrophysiologic studies, intracardiac, right heart catheterization for: implications for primary care nurse, 85
Emergency department, incidence of disseminated intravascular coagulation in patients admitted through: 5 year retrospective study, 833
Emotional management of children with acute respiratory failure in intensive care unit: case study, 98
Endotracheal suction–induced hypoxemia, effectiveness of two preoxygenation methods to prevent, 316
Errata, 710, 733, 890
Escape-capture bigeminy, study of, 1087
Etiology, manifestations, and management—hypercalcemia, 146
Exercise compliance, relationship of health beliefs and knowledge to, in patients after coronary bypass, 487
paroxysmal second-degree atrioventricular block induced by, 887
program, selection of, for patients with chronic obstructive pulmonary disease, 68
Extrasystolic or parasystolic, concealed bigeminal interpolated A-V junctional complexes, 140

F

Failure, acute respiratory, emotional management of children with, in intensive care unit: case study, 98
left ventricular congestive heart, principles of vasodilator therapy for, 271
precipitated by chronic megaloblastic anemia, 299
pump, following myocardial infarction: overview, 293
Families and coronary patients, evaluation of inpatient educational program for, 846
Fever, Korean hemorrhagic, 122
Fibrillation, recurrent ventricular, complicating acute myocardial infarction, bretylium tosylate in management of, 265

G

Glucose-insulin-potassium in acute myocardial infarction, 905
Goodpasture's syndrome, intrigue and challenge of, 699
Guidelines for detection and care: anaphylaxis and drug reactions, 662

H

Health beliefs and knowledge, relationship of, to exercise compliance in patients after coronary bypass, 487
knowledge gained through formal and informal teaching, study of difference in, 1079
Heart catheterization, right, for intracardiac electrophysiologic studies: implications for primary care nurse, 85
failure, congestive, nitroglycerin and nitrates in, 873
left ventricular congestive, principles of vasodilator therapy for, 271
rate and blood pressure responses to sexual activity and stair-climbing test, 1025
Hemodynamic monitoring in coronary care unit, 541
in critically ill patients, 1060
Hemorrhagic fever, Korean, 122
Hydromediastinum and hydrothorax, massive bilateral: unusual complication of percutaneous internal jugular vein cannulation, 883
Hydrothorax and hydromediastinum, massive bilateral: unusual complication of percutaneous internal jugular vein cannulation, 883
Hyperacute phase of posterolateral myocardial infarction, 726
Hypercalcemia—etiology, manifestations, and management, 146
Hypersensitivity, immunosuppression, and autoimmunity, 651
Hypertension, intracranial, positioning patient with: how turning and head rotation affect internal jugular vein, 1031
Hypertensive patients' understanding of terminology, 498
Hypoxemia, endotracheal suction–induced, effectiveness of two preoxygenation methods to prevent, 316

I

Ice water ingestion, effect of, on blood pressure and pulse rate in healthy young adults, 306
Imaging, radionuclide, evaluation of coronary arteries and myocardium by, 344
Immune system, physiology of, 645
Immunologic(al) assessment: nursing focus, 658
challenge, meeting: overview, 643
of transplant nursing, meeting, 690
factors in reactions to blood transfusions, 675
Immunology, cancer, 686
Immunosuppression, autoimmunity, and hypersensitivity, 651
Infarction, acute myocardial, bifascicular block in, V. Acute problems in coronary care unit that do not require intervention, 152
bretylium tosylate in management of recurrent ventricular fibrillation complicating, 265
glucose-insulin-potassium in, 905
prolonged rehabilitation of patients after, and effects on complex of physiological variables, 1038
myocardial, pump failure following: overview, 293
posterolateral myocardial, hyperacute phase of, 726
right ventricular: recognition, treatment, and nursing considerations, 706
Information, varying timing of, to alter preoperative anxiety and postoperative recovery in cardiac surgery patients, 854
Infusion pump artifacts: potential danger of spurious dysrhythmia, 1063
Ingestion, ice water, effect of, on blood pressure and pulse rate in healthy young adults, 306
Inhalation injuries, smoke, 825
In-hospital education approaches for coronary bypass patients, comparison of, 127
Injuries, smoke inhalation, 825
Inpatient educational program for coronary patients and families, evaluation of, 846
Insulin-glucose-potassium in acute myocardial infarction, 905
International meeting (AACN), 983
Intracardiac conduction, study in, 891

Intracranial hypertension, positioning patient with: how turning and head rotation affect internal jugular vein, 1031
Intravascular coagulation, disseminated, incidence of, in patients admitted through emergency department: 5 year retrospective study, 833
Intensive care unit, emotional management of children with acute respiratory failure in: case study, 98
nurse and pulmonary physiology, 55
syndrome and sleep deprivation, correlation between, 464
Interaction(s), digitalis-quinidine, 352
toxic, with other antiarrhythmic agents: adverse effects of disopyramide (Norpace), 469
Intervention, acute problems in coronary care unit that do not require. V. Bifascicular block in acute myocardial infarction, 152
Intracardiac electrophysiologic studies, right heart catheterization for: implications for primary care nurse, 85
Intubation, prolonged nasotracheal, 93

J

Jugular vein cannulation, percutaneous internal, unusual complication of: massive bilateral hydrothorax and hydromediastinum, 883
internal, how turning and head rotation affect: positioning patient with intracranial hypertension, 1031

K

Knowledge and beliefs, health, relationship of, to exercise compliance in patients after coronary bypass, 487
health, gained through formal and informal teaching, study of difference in, 1079
nurses', of teaching-learning principles, effects of, on knowledge of coronary care unit patients, 1073
Korean hemorrhagic fever, 122

L

Learning-teaching principles, effects of nurses' knowledge of, on knowledge of coronary care unit patients, 1073
Letters to editors, 157, 358, 547, 734, 910, 1101
Leveling when monitoring central blood pressures: alternative method, 1053
Lidocaine prophylaxis: alternative to computerized arrhythmia monitoring, 1007
Lupus erythematosus, systemic, patient with: prototype of autoimmunity, 682

M

Malignant and benign forms—chronic meningitis, 534
Manifestations, etiology, and management—hypercalcemia, 146
Medical management of adults and older children undergoing cardiac operations, 277
Megaloblastic anemia, chronic, left ventricular failure precipitated by, 299
Meningitis, chronic—benign and malignant forms, 534
Monitoring central blood pressures, leveling when: alternative method, 1053
Monitoring—cont'd
computerized arrhythmia, alternative to: lidocaine prophylaxis, 1007
hemodynamic, in coronary care unit, 541
in critically ill patients, 1060
system, computerized arrhythmia, nurse acceptance of, 1044
technicians—critical interface, 1009
Mucormycosis, pulmonary, multiple pulmonary abscesses resulting from, 514
Myocardial infarction, acute, bifascicular block in, V. Acute problems in coronary care unit that do not require intervention, 152
bretylium tosylate in management of recurrent ventricular fibrillation complicating, 265
glucose-insulin-potassium in, 905
prolonged rehabilitation of patients after, and effects on complex of physiological variables, 1038
posterolateral, hyperacute phase of, 726
pump failure following: overview, 293
Myocardium and coronary arteries, evaluation of, by radionuclide imaging, 344

N

Nasotracheal intubation, prolonged, 93
Nebulization, long-term, of various therapeutic agents, systemic and pulmonary changes in rabbits exposed to, 311
Neonate(s), arterialized capillary blood sampling in: reappraisal, 521
with supraventricular tachycardia, initiation of diving reflex in, 518
News and announcements (AACN), 32, 231, 432, 621, 808, 984
Nitrates and nitroglycerin in congestive heart failure, 873
Nitroglycerin and nitrates in congestive heart failure, 873
Nodal disease, atrioventricular, does diagnosis of sinoatrial block imply? 892
Norpace (disopyramide), adverse effects of: toxic interactions with other antiarrhythmic agents, 469
phosphate), clinical pharmacology of antiarrhythmic agent, 475
Nurse(s) acceptance of computerized arrhythmia monitoring system, 1044
dilemma: mediating stress in critical care units, 103
intensive care unit, and pulmonary physiology, 55
knowledge of teaching-learning principles, effects of, on knowledge of coronary care unit patients, 1073
and physicians, closing communication gap between, in intensive care unit setting, 836
primary care, implications for: right heart catheterization for intracardiac electrophysiologic studies, 85
specialist, clinical–social worker team on cardiovascular surgery service, 841
Nursing care, rare disease with some not so rare implications for: Boerhaave's syndrome, 507
considerations, recognition, and treatment: right ventricular infarction, 706
focus: immunologic assessment, 658
orientation, critical care: comparison of teaching methods, 1066
transplant, meeting immunologic challenge of, 690

O

Obesity—new approach to old problem, 719
Obstructive pulmonary disease, chronic, selection of exercise program for patients with, 68
Operations, cardiac, medical management of adults and older children undergoing, 277
Overview: meeting immunological challenge, 643

P

Pacing, permanent, convulsive disorder mimicked by prolonged asystole and cured by, 711
Parasystolic or extrasystolic, concealed bigeminal interpolated A-V junctional complexes, 140
Paroxysmal second-degree atrioventricular block induced by exercise, 887
Pathophysiology and treatment: asthma update, 665
Pharmacology, clinical, of antiarrhythmic agent disopyramide phosphate (Norpace), 475
Phase, hyperacute, of posterolateral myocardial infarction, 726
Phosphate, disopyramide (Norpace), clinical pharmacology of antiarrhythmic agent, 475
Physicians and nurses, closing communication gap between, in intensive care unit setting, 836
Physiologic(al) basis for minimizing rebleeding: aneurysm precautions, 336
  variables, prolonged rehabilitation of patients after acute myocardial infarction and effects on complex of, 1038
Physiology of immune system, 645
  pulmonary, and intensive care unit nurse, 55
Plasmapheresis: current research and success, 671
Positioning patient with intracranial hypertension: how turning and head rotation affect internal jugular vein, 1031
Potassium-glucose-insulin in acute myocardial infarction, 905
Precautions, aneurysm: physiologic basis for minimizing rebleeding, 336
Preoxygenation methods, two, effectiveness of, to prevent endotracheal suction–induced hypoxemia, 316
President's message (AACN), 25, 223, 423, 613, 801, 977
Pressure(s), blood, and heart rate responses to sexual activity and stair-climbing test, 1025
    and pulse rate, effect of ice water ingestion on, in healthy young adults, 306
  central blood, leveling when monitoring: alternative method, 1053
Prinzmetal's angina, case of, with right bundle branch block, 531
Procedures performed on others, stress effects on patients in critical care units from, 494
Prognosis and significance: ventricular conduction defects, 111
Program, exercise, selection of, for patients with chronic obstructive pulmonary disease, 68
  inpatient educational, for coronary patients and families, evaluation of, 846
Prophylaxis, lidocaine: alternative to computerized arrhythmia monitoring, 1007
Pulmonary abscesses, multiple, resulting from pulmonary mucormyocosis, 514
  complications, preoperative and postoperative care to prevent, 57

Pulmonary—cont'd

  disease, chronic obstructive, selection of exercise program for patients with, 68
  physiology and intensive care unit nurse, 55
  and systemic changes in rabbits exposed to long-term nebulization of various therapeutic agents, 311
Pulse rate and blood pressure, effect of ice water ingestion on, in healthy young adults, 306
Pump artifacts, infusion: potential danger of spurious dysrhythmia, 1063
  failure following myocardial infarction: overview, 293

Q

Quinidine-digitalis interaction, 352

R

Radionuclide imaging, evaluation of coronary arteries and myocardium by, 344
Rate, heart, and blood pressure responses to sexual activity and stair-climbing test, 1025
  pulse, and blood pressure, effect of ice water ingestion on, in healthy young adults, 306
Reactions to blood transfusions, immunologic factors in, 675
  drug, and anaphylaxis: guidelines for detection and care, 662
Rebleeding, physiologic basis for minimizing: aneurysm precautions, 336
Recovery, postoperative, and preoperative anxiety, varying timing of information to alter, in cardiac surgery patients, 854
Reflex, diving, initiation of, in neonates with supraventricular tachycardia, 518
Rehabilitation, prolonged, of patients after acute myocardial infarction and effects on complex of physiological variables, 1038
Research, current, and success: plasmapheresis, 671
Respiratory disorders during sleep. I, 1011
  failure, acute, emotional management of children with, in intensive care unit: case study, 98
Reviews of books and audio-visual teaching material, 161, 359, 557, 740, 920, 1103
Rotation, head, and turning, how, affect internal jugular vein: positioning patient with intracranial hypertension, 1031

S

Sampling, arterialized capillary blood, in neonate: reappraisal, 521
Sexual activity and stair-climbing test, heart rate and blood pressure responses to, 1025
Sick-sinus syndrome, study of, 350
Sinoatrial block, does diagnosis of, imply atrioventricular nodal disease? 892
Sinus syndrome, sick-, study of, 350
Sleep and cardiac patient, 453
  deprivation and intensive care unit syndrome, correlation between, 464
  respiratory disorders during. I, 1011
Smoke inhalation injuries, 825
Social worker–clinical nurse specialist team on cardiovascular surgery service, 841

Specialist, clinical nurse–social worker team on cardiovascular surgery service, 841
Staff report (AACN), 226, 429, 619, 804, 980
Standards for Care of Critically Ill (AACN), 29
Stress effects on patients in critical care units from procedures performed on others, 494
mediating, in critical care units: nurse's dilemma, 103
Suction–, endotracheal, induced hypoxemia, effectiveness of two preoxygenation methods to prevent, 316
Supraventricular tachycardia, initiation of diving reflex in neonates with, 518
Surgery patients, cardiac, varying timing of information to alter preoperative anxiety and postoperative recovery in, 854
service, cardiovascular, clinical nurse specialist–social worker team on, 841
Swan-Ganz catheter, troubleshooting, 303
Symposium, overview of—cardiovascular therapeutics, 263
Syndrome, Boerhaave's: rare disease with some not so rare implications for nursing care, 507
Goodpasture's, intrigue and challenge of, 699
intensive care unit, and sleep deprivation, correlation between, 464
sick-sinus, study of, 350
System, immune, physiology of, 645
Systemic lupus erythematosus, patient with: prototype of autoimmunity, 682
and pulmonary changes in rabbits exposed to long-term nebulization of various therapeutic agents, 311

T

Tachycardia, multifocal atrial: 66 month follow-up of 50 patients, 328
supraventricular, initiation of diving reflex in neonates with, 518
Teaching, formal and informal, study of difference in health knowledge gained through, 1079
-learning principles, effects of nurses' knowledge of, on knowledge of coronary care unit patients, 1073
methods, comparison of: critical care nursing orientation, 1066
Team, clinical nurse specialist–social worker, on cardiovascular surgery service, 841
Technicians, monitoring—critical interface, 1009
Telemetry, ambulance, cost and utility considerations in implementing, 866
Terminology, hypertensive patients' understanding of, 498
Test, stair-climbing, and sexual acitivity, heart rate and blood pressure responses to, 1025
Therapeutics, cardiovascular—overview of symposium, 263
Therapy, vasodilator, principles of, for left ventricular congestive heart failure, 271
Torsade de pointes, 1096
Tosylate, bretylium, in management of recurrent ventricular fibrillation complicating acute myocardial infarction, 265
Toxic interactions with other antiarrhythmic agents: adverse effects of disopyramide (Norpace), 469
Transfusions, blood, immunologic factors in reactions to, 675
Transplant nursing, meeting immunologic challenge of, 690
Treatment and pathophysiology: asthma update, 665
recognition, and nursing considerations: right ventricular infarction, 706
Turning and head rotation, how, affect internal jugular vein: positioning patient with intracranial hypertension, 1031

U

Unit(s), coronary care, acute problems in, that do not require intervention. V. Bifascicular block in acute myocardial infarction, 152
hemodynamic monitoring in, 541
critical care, mediating stress in: nurse's dilemma, 103
stress effects on patients in, from procedures performed on others, 494
intensive care, emotional management of children with acute respiratory failure in: case study, 98
nurse, intensive care, and pulmonary physiology, 55
patients, coronary care, effects of nurses' knowledge of teaching learning principles on knowledge of, 1073
setting, intensive care, closing communication gap between physicians and nurses in, 836
syndrome, intensive care, and sleep deprivation, correlation between, 464
Utility and cost considerations in implementing ambulance telemetry, 866

V

Vasodilator therapy, principles of, for left ventricular congestive heart failure, 271
Vein cannulation, percutaneous internal jugular, unusual complication of: massive bilateral hydrothorax and hydromediastinum, 883
internal jugular, how turning and head rotation affect: positioning patient with intracranial hypertension, 1031
Ventricular infarction, right: recognition, treatment, and nursing considerations, 706

W

Water ingestion, ice, effect of, on blood pressure and pulse rate in healthy young adults, 306
